National DJs

Ireland has grown considerably to earn our current well deserved position as a popular party destination recognised globally by party goers and clubbers worldwide. It's our clubs and national dj's that have won this recognition. At Mex Events we know who these team players are and have been booking national dj's at venues and events across the country since 2005. We know who's who in Irish dj's from radio personalities to internationally acclaimed globe trotters. Therefore we can help you book the right dj's for your events or even help you source your next resident for your bar or club. We also provide dj's for weddings and private functions as well as retail stores for product launches and shopping centre promotions.

International DJs

Booking acts from across the seas can often be a risky business not to mention transport and hospitality riders on top of fees. But even if you can make the figures outweigh the risk it can still be difficult to access the dj's you want. We have particular experience in this area. We have been flying international dj's in and out of Ireland for twelve years and have an artist booking history the length of your arm. Booking flights and hotels, organising drivers and arranging itineraries is all important but it's the relationships we have established with managers, agents and promoters worldwide that really counts. This has put us in a very strong position when it comes to sourcing the right acts for our clients at the right price. Talk to us before you book an international act for your next event.

Celebrities

Booking celebrity reality TV cast members for dj set's, guest appearances and meet and greets has become very popular in Ireland and the UK over the past few years.

Taking a celebrity from someones mid-week television routine and landing them on their doorstep at the local hotel, club or shopping centre has generated a genuine demand and can, when planned correctly be hugely successful. Not only financially but also in media exposure via social media, radio and television interviews.

Through constant monitoring and keeping up to date with who's hot and who's not we have strong existing relationships with many management companies for some of the most popular celebrities in the world. Some celebrities can be booked for DJ sets in clubs and others for guest appearances at retail store openings, product launches and shopping centre promotions. Talk to us before you book your next TV celebrity.
